Admission under BITS-RMIT Higher Education Academy

Dear Aspirants:

Unlock a world-class education with the BITS-RMIT Higher Education Academy, a unique partnership between two leading universities in India and Australia. This ground-breaking program offers you the chance to earn two globally recognized degrees simultaneously from BITS Pilani and RMIT Australia, providing an affordable pathway to an exceptional international education.

Your journey begins at a BITS campus in Pilani, Hyderabad, or Goa, where you'll spend the first half of your degree. You'll be concurrently enrolled at both BITS and RMIT, primarily focusing on BITS subjects while gaining valuable exposure to RMIT's curriculum. For the second half of your degree, you'll immerse yourself in Melbourne, Australia, at RMIT's vibrant campuses, experiencing life in a new academic and cultural environment.

Some of the unique features of the BITS RMIT Higher Education Academy are:

- **Dual Degrees from two leading universities**
- **Unparalleled transition experience**
 - Starting with a familiar cohort in India and land in Melbourne with a built-in community of friends and peers
 - RMIT curriculum integrated in your first 2 years of study for familiarization
 - Immersion experience and visit to Melbourne in 2027 for 2026 intake cohort
 - Coordinated support for Australian student visa via RMIT facilitated education agency
 - No additional academic requirements for transfer once cleared all BITS courses

- **Global recognition**

The engineering programs are accredited by [Engineers Australia](#) (EA), signatory to Washington Accord. Bachelor of Computer Science program is accredited at professional level by the by the [Australian Computer Society](#) signatory to Seoul Accord.

- **Excellent Value Proposition**

International education with significant cost savings in comparison to 4-year study overseas. As a BITS-RMIT Higher Education Academy student, you'll be eligible for the RMIT Future Leadership Scholarship, offering a 20% reduction in tuition fees for the portion of your program studied at RMIT Australia.

For more information about the academy and program details visit <https://bitsrmit.in/>

For comprehensive details on all admission requirements, including English language proficiency, please visit the BITS-RMIT Higher Education Academy website: <https://bitsrmit.in/how-to-apply/>

How to Apply: A Step-by-Step Guide

Applying to the BITS-RMIT Higher Education Academy is a **two-part process**. Please review the steps carefully. Applicants must meet the entry requirements of both individual institutions to qualify.

Part 1: Apply to BITS Pilani

Complete your standard BITS application and lock in your program preferences for the *BITS-RMIT Higher Education Academy* latest by the BITSAT preference edit window 5 to 7 June 2026.

Part 2: Provide additional documents for RMIT admissions assessment

- a) Activate your access to BITS RMIT Admissions student portal.

Once your preferences are logged, you will receive an email from RMIT with credentials and instructions to activate your account on the BITS-RMIT Admissions student portal.

- b) Log into your newly activated RMIT portal and upload the following documents:

- Official Academic Transcripts: A copy of your AISSC (CBSE), ISC, State Board HSC, or equivalent qualification showing overall completion and marks/grades for all attempted subjects.
- English Language Proficiency: Valid evidence matching the criteria outlined below.
- Visa Questionnaire: Complete the mandatory preliminary visa screening questionnaire available through the portal.

Admission is strictly competitive. Applicants who meet the base requirements for both institutions will be ranked according to their moderated BITSAT scores. Applicants who meet entry requirements will be ranked based on their moderated BITSAT score. Offers will be issued to the top ranked applicants down, until places are filled.

RMIT Entry requirements

English language requirements

1. Achieved 70% or above in Year 12 English subject score in Indian School Certificate examination (ISC) *
2. Achieved 75% or above in Year 12 English subject score in Central Board of Senior Education examination (CBSE) *
3. If you have other secondary qualifications or do not meet the subject score requirements listed above you will need to provide English language proficiency tests results. RMIT accepts a range of English proficiency tests. Refer to [English language proficiency tests for international students](#) website for the list of acceptable tests and scores you are required to obtain**

(*) You must provide an official letter from your high school office confirming that your Year 12 studies were taught and assessed entirely in English.

(**) RMIT will reimburse 50% of the English proficiency test cost up to a maximum value of 8500 INR, for any candidates who are required to provide English proficiency test results AND successfully enrol into an Academy program in the 2026 intake. We recommend that you book your test as soon as possible and check the identification requirements for testing centres and their results processing times.
