BITS Pilani (an Institution of Eminence in India) and CentraleSupélec Paris (a 200-year elite School of Engineering, alma mater of Eiffel, Michelin, Peugeot and founding member of Paris-Saclay University in France ranked #12 worldwide, home to 22 Nobel Laureates and 100+ Field Medalists) have partnered to offer an exciting opportunity for students to pursue unique collaborative academic programmes at the international level. Students can pursue a dual degree programme whereby they can obtain an engineering degree from BITS Pilani and a bachelor's degree in engineering from CentraleSupélec Paris (CSP) upon successful completion of the programme requirements.

Students admitted under this collaboration will have the unique opportunity to immerse themselves in diverse cultures and gain a truly global perspective. In this four-year collaborative 'dual degree' programme, students will spend the first two years along with the summer term at BITS Pilani campuses before transferring to CS Paris in France for the final two years.

remaining two years (i.e., years three and four) of their study period. Our innovative curriculum combines the strengths of both academic environments, offering an outstanding education that would prepare them for success in today's rapidly changing world. state-of-the-art facilities, inspiring faculty, and a wide range of extracurricular activities collaboration is the perfect place to launch students' productive academic and professional journeys.

It is planned to admit students in the following undergraduate programmes from leading universities from the Academic Year 2025-26 programmes onward.

- B.E. Computer Science by BITS Pilani, Pilani Campus and B.E. Computer Science & Artificial Intelligence by CentraleSupélec Paris.
- B.E. Computer Science by BITS Pilani, K K Birla Goa Campus and B.E. Computer Science & Artificial Intelligence by CentraleSupélec Paris.
- B.E. Computer Science by BITS Pilani, Hyderabad Campus and B.E. Computer Science & Artificial Intelligence by CentraleSupélec Paris.
